

**Compliments Slips – This is a simple way for you to download and personalise. You are free to create your own – the ASC logo can also be downloaded.**

**Instructions** Download this page from the website and save to your own computer. Fill in the shaded areas with whatever details you wish (the shading does not print). Delete any surplus text. Save again! Print. Your printer may say that the margins of the page are outside the printable area – click "ignore" (you should only lose these instructions). Cut using a sharp knife and a straightedge using the marks at the sides and top and bottom to line up the cuts. Distribute!
